QUINCY, MASSACHUSETTS

# ANNUAL REPORTS

1944

## City of Quincy Massachusetts

*Population: 1940 Census, 75,810*

*Directory Estimate, 81,000*

*Area: 16.8 Square Miles*

*Valuation: \$132,808,149.00*

---

*The reports in this booklet are in condensed form and have been edited and prepared for publication by Galen W. Hill, Librarian of the Thomas Crane Public Library. The complete annual reports of all City Departments are on file in the office of the City Clerk.*

MAYOR CHARLES A. ROSS

## *Foreword*

It is my conviction that a city will be a much better city in proportion to the understanding by its citizens of its operation and the activities and facilities carried on and made available for the civic welfare. An annual city report can be the means of providing such knowledge only if it is read. For this reason it has been decided this year to make a departure from the form in which Quincy's city reports have been published heretofore and to publish them in a condensed and illustrated edition, with much material of technical and special nature omitted and without duplication of statistical details. I hope you will enjoy this new type of city report and find it interesting and informative.

We have passed through a year of war and many thousands of our men and women have been serving in the armed forces throughout the world. Hundreds of our citizens have devoted themselves to local war needs of civilian defense, rationing, aids at the Quincy Hospital and all the other requirements of a City during war. Despite a curtailment of available man power, every city department has labored cheerfully and tirelessly to render the best available municipal service. We can be justly proud of our record during this past year.

With the cooperation of the members of the City Council it has been possible for us to accomplish needed public improvements and achieve an excellent tax rate and a splendid net debt reduction. Your City is in a very fine financial condition and we will continue to maintain and improve that condition in order that we may meet any post war demands.

It is the determination of your city government to remain prepared for any contingencies of the future, to maintain and improve every function of the city government and to welcome home to a financially sound city the returning veterans of this world conflict. I desire to express my extreme gratitude for the splendid cooperation which I have received from every board, department head, members of the council and all citizens who have devoted themselves to the welfare of the city and the united war effort which we have maintained.

Mayor

# CITY CLERK

HATTIEMAY THOMAS .....*City Clerk*  
DONALD T. CRANE .....*Assistant City Clerk*

Employees — 5

1944 Budget Expenditure ..... \$12,176.52

In the office of the City Clerk there are complete records of vital statistics (births, marriages, deaths) and many other records including recording of chattel mortgages, discharge of chattels, assignment, bills of sale, assignment of wages, business certificates and married women's certificates. Soldiers may bring their service discharges and have them recorded as a permanent record. The office issues marriage licenses, hunting, fishing, trapping licenses and all dog licenses.

All licenses granted by the Board

of License Commissioners are applied for at this office as the City Clerk is a member of the License Board. All records and proceedings of the City Council are kept in this office as the City Clerk is clerk of the City Council. The City Clerk has charge of all elections and election procedure. The registration of voters is done by the Board of Registrars and Assistant Registrars and as the City Clerk is one of the registrars all records of registered voters are kept in this office.

All records and reports of the Workmen's Compensation are kept in this office as the City Clerk is agent for the Workmen's Compensation. All receipts for permits issued by this office are turned over to the Treasurer of the City.

The number of dog licenses in 1944 .....	3,371	
Receipts to Norfolk County .....		\$6,908.40
Fees to the City .....		674.60
Receipts to Commonwealth of Massachusetts for hunting and fishing licenses .....		3,455.00
Fees to the City .....		447.75
Receipts for Sunday permits .....		2,744.00
Receipts for marriages .....		1,742.00
Receipts for recording mortgages, etc. ....		1,145.35
Receipts for copies of births, marriages and deaths .....		585.70
Number of marriage intentions .....	874	
Number of marriages recorded .....	908	
Number of births recorded .....	1,901	
Number of deaths recorded .....	894	

# LICENSE COMMISSION

=====

WILLIAM J. SANDS, Fire Chief.....*Chairman*  
 JOHN J. AVERY.....*Police Chief*  
 HATTIEMAY THOMAS .....*City Clerk*

=====

The License Commission in the City of Quincy was established by

an Act of Legislature, Chapter 70, Acts of 1920, and consists of the Chiefs of Police and Fire Department and the City Clerk of the City. Licenses are granted, suspended and revoked by the Commission. The following licenses were granted in 1944 and receipts for same given to the Treasurer of the City:

Amusements .....	\$630.00
Auctioneers .....	16.00
Bowling alleys and pool tables .....	840.00
Cabaret and common victuallers .....	1,275.00
Firearms and explosives .....	19.00
Hackneys .....	51.00
Intelligence offices .....	10.00
Junk and second hand merchandise .....	380.00
Lord's day .....	615.00
Motor licenses .....	1,390.00
Parking space .....	420.00
Pawn broker and old gold .....	90.00
Gasoline, garage, fuel oil and denatured alcohol ....	3,112.00
Liquor .....	58,650.00

-----

Total receipts .....	\$67,498.00

*Harry W. Tirrell, City Messenger for 56 years, being sworn by Mrs. Thomas, City Clerk.*

# PUBLIC WORKS

=====

JAMES P. DONOVAN..... *Commissioner*

Number of Employees — 218

1944 Budget Expenditure..... \$728,411.05

=====

## HIGHWAYS

The activities of the Highway Department were greatly curtailed owing to war conditions. The maintenance work was carried on by a depleted force with restricted materials; however, sidewalks were laid and curbings reset wherever necessary. The only streets resurfaced were Fenno Street, Rice and Nevada Roads.

Other maintenance included street oiling, maintenance of drains, pumping out of cellars, repairing bridges, fences, brooks and street signs. The work and expense caused by the hurricane of September 14th were assumed by the Highway Department.

The Department constructed a foundation for the Community

War Memorial erected at Sea Street and Manet avenue. Community memorial parks were also established and flagpoles erected on Standish Avenue, Wollaston and Curlew Road, Adams Shore; Liberty Park on Tabor Street is not yet finished.

## STREET LIGHTING

Since the termination of the blackout precautions we have gradually reconnected street lamps until street illumination is practically back to normal throughout the city. Governmental restrictions have been removed so that we have been able to install some new lamps. More illumination has been added in the Fore River section as a result of emergency engineering survey. On account of dangerous conditions reported, lamps of higher voltage have been installed and conditions corrected.

## COMPLETED PROJECTS

Foster Street widening was practically completed.

The trolley station erected on the Tupper Island site was finished and the total cost paid by the Eastern Massachusetts Street Railway Company.

## SANITARY DEPARTMENT

The collections of garbage and rubbish were very irregular owing to the shortage of labor and during the heavy storms the service was discontinued and the trucks were equipped with blades for snow plowing. The conditions following the hurricane greatly affected the efficiency of this Department. The transaction for the sale of garbage to the South Shore farmers is shown in the report of the City Treasurer. Our present facilities for the dumping of rubbish are located on Quarry Street but we are anticipating additional acreage off Palmer Street, Adams Shore, where the city owns a large tract of land.

## FORESTRY

In addition to the regular winter and spring work in connection with the gypsy moth control we took care of the trees damaged by the force of the hurricane which was very heavy along the shore area, especially in Squantum and Hough's Neck. About one hundred and seventy-five privately owned trees were destroyed. More

trimming and the removal of broken stumps will be necessary.

We did some landscape gardening in the Hancock Cemetery, planting a large bed of hybrid rhododendrons on the southerly side and flowering trees and shrubs throughout the grounds. We also installed the lettering on the Hancock street side.

In addition to the maintenance of the city street parks, we supplied the flowering plants for the beautification of the Community Memorial Park at the junction of North and South Bayfield Roads off the boulevard at North Quincy. We also planted a new flower bed on Sims Road at the request of the commander of the Hingham Marine Base at Hingham Arsenal. We laid out a raised flower bed with the letters "U. S. M. C." opposite their barracks.

Completing our spraying program we used six tons of arsenate of lead, filling orders for private property, spraying the street trees and areas infested with Japanese beetles. Our trucks were serviced for snow duty and were used for plowing during the severe storms.

---

# WATER DEPARTMENT

---

JOHN G. WHITMAN ..... Superintendent

Employees — 51

1944 Budget Expenditure ... \$116,200.32

---

The following statistics are taken from the complete report of this Department on file with the City Clerk:

Consumption of water for year 1944 .....	2,185,531.280 Gallons
Average daily consumption .....	5,970,800 Gallons
Gallons per capita .....	77 Gallons
Main pipe laid .....	350 Feet
Total main pipe in use in city .....	203.4 Miles
Number of services in use .....	17,065
Percent metered .....	100%
Fire hydrants in use .....	1,953

This department has prepared a post-war five year construction plan for water pipe lines, gates, hydrants with estimated costs and by degree of urgency. The total calls for an expenditure of \$327,663.00, of which at least \$80,000 is of primary urgency.

---

# SEWER DEPARTMENT

---

WALTER S. MCKENZIE ..... General Foreman

Employees — 20

1944 Budget Expenditures ..... \$56,510.89

---

Sewer extension during 1944 amounted to 4,429.10 feet, bringing the total miles of sewer built to January 1, 1945, 167.24 miles. There are 4,189 manholes in the city. One hundred forty-three connections were made to the common sewer; 125 to single houses. Drain construction amounted to 504 feet and there were the usual drain repairs and alterations during the year.

# CEMETERY

---

## Employees — 33

1944 Budget Expenditure .....\$50,818.87  
Perpetual Care Funds..... 7,826.25

---

There were 534 burials during 1944 and six removals. Full accountings of receipts, expenditures, also of perpetual care and other trust funds, will be found in the reports of the Auditor and City Treasurer. It may be stated that the Cemetery Department is almost self-supporting, the receipts for 1944 being \$57,448.23 and the expenses \$58,645.12.

In the Mount Wollaston Cemetery during 1944 approximately one-half acre of land was graded and marked out in lots and graves. Four hundred sunken graves were filled in and about five miles of streets graded and tarred. The damage done by the hurricane of September 14th was considerable, both in Mount Wollaston and the Hancock Cemeteries. The trees and shrubs were blown down and much rubbish accumulated. All has been removed and replaced with flowering shrubs and new grass seed sown where necessary. Both cemeteries are in excellent shape and a credit to the city.

*Mount Wollaston Cemetery.*

# PARK DEPARTMENT

## COMMISSIONERS

J. ERNEST COLLINS.....*Chairman*  
 WILLIAM J. MITCHELL.....*Vice-Chairman*  
 JOSEPH W. PINEL.....*Secretary*

Employees — 21

1944 Budget Expenditure..... \$57,780.58

## MAINTENANCE

During the past year all baseball and softball fields, football grid-irons, tennis courts, parks, playgrounds and beaches were put in condition during the spring months and maintained for the season. Skating rinks and ponds were

serviced and maintained throughout the city. The Maintenance Department under Foreman Harry Boyd, and a skilled personnel, covered every phase of our work which included grading, seeding, carpentry, landscaping, masonry, construction and forestry.

## ADDITIONS

In the past year, we have had two additions to our Department. One is a small piece of property at the intersection of North and South Bayfield road which was purchased by the Council. It was graded and seeded, shrubs were planted and a flag pole erected, as a memorial to the men and women of this area who have answered their country's call to service. This park was named the "Irving B.

BOARD OF PARK COMMISSIONERS — Seated, left to right: Mr. J. Ernest Collins, Chairman; Joseph W. Pinel, Sr., Secretary, and William Mitchell, Vice-Chairman. Standing: Mr. Harry T. Boyd, Foreman.

Patten Park." A permanent memorial will be erected at a later date. The other addition was the erection of the new waiting room at the junction of Coddington Street and Washington Street, also to be maintained by the Park Department. We also had returned to our control the various pieces of park property which were under lease to the U. S. Army, including the Fore River Club, which has been reconditioned and is again being used extensively.

#### PLAYGROUNDS

Under the direction of Mr. William Bowyer, Playground Supervisor, and Mr. Laroy Rogers, Assistant Supervisor, our playground season, which ended with a field day, was a complete success.

Playground instructors this year benefited through the training program arranged and conducted by the Community Recreational Service of Boston, Mr. S. H. Frieswyck, Director.

Subjects presented were musical activities, games and folk dances and specialties. An outline of a daily program was presented by Mr. Bowyer.

Attendance at all playgrounds was higher than last year and a widely diversified program was offered. Besides the athletics supervised by Mr. Rogers, story telling, handicraft, plaster of paris novelties, folk dancing, clubs, campcraft, community singing and other activities were offered.

The usual field day was held winding up the season's program with a bigger percentage of participants and a larger audience than any other year. Baseball, track and horseshoe finals were a feature and the arts and crafts exhibit arranged under the supervision of Miss Ilda DiMascio was unusually attractive and received much praise. Defense stamps were given as awards.

*The Lieutenant Irving B. Patten Park was constructed by the Park Department in May, 1944 and dedicated on June 4, 1944, to the memory of Lieutenant Patten who gave his life for his country in the war with Germany on October 1, 1943. Lieutenant Patten was graduated from Quincy High School, class of 1935.*

HARRY H. KERR

DELCEVARE KING

J. EVERETT ROBBIE

GERHARD F. SCHAFER .....*Clerk*

1944 Budget Expenditure.....\$12.08

## RECOMMENDATIONS

Two recommendations which the Board made in 1943 were carried to completion this year. In March the City Council accepted and passed the plan recommended by the Board for the extension of Mount Wollaston Cemetery; and in September the Council accepted an eighty-foot roadway on the southerly side of the police station from the Southern Artery to the remaining portion of the Broad

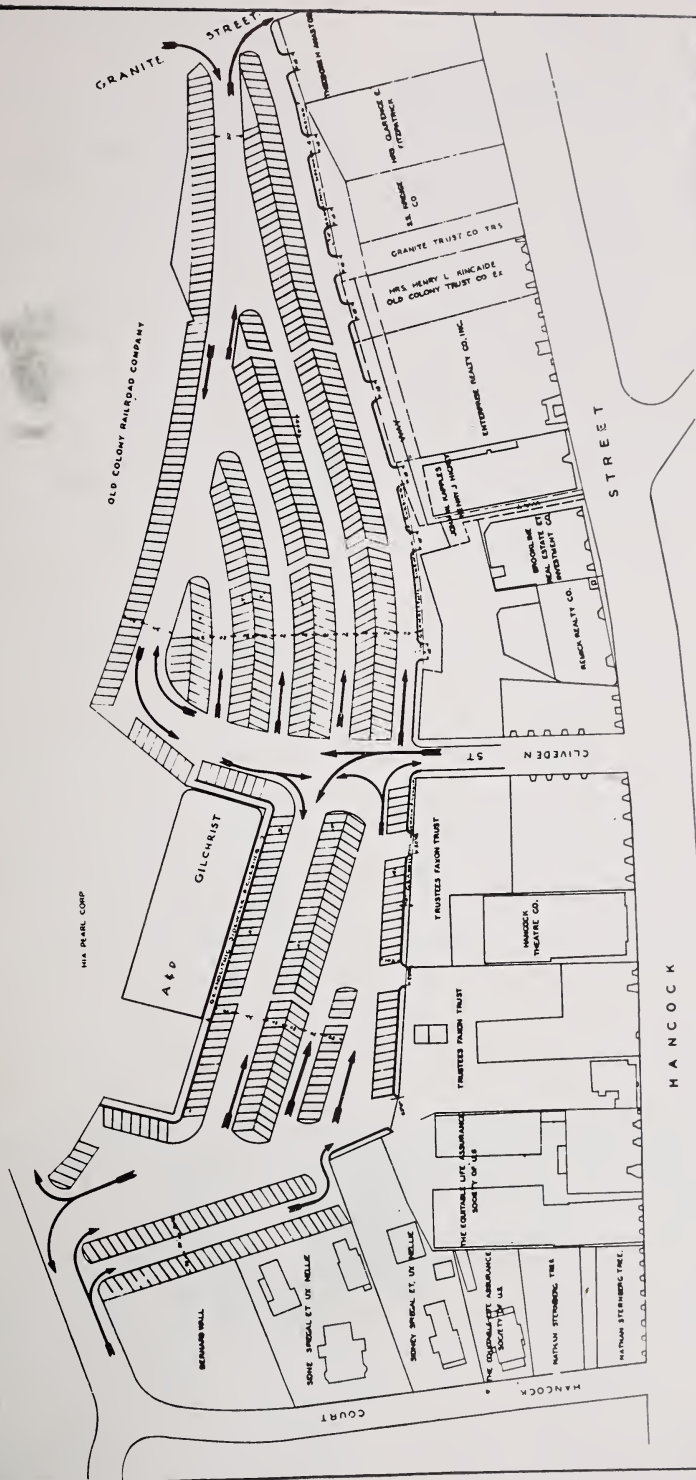

Meadows which the Board feels will eventually be used for industrial sites.

The proposed development on the easterly side of Hancock street was not approved by the Council. It is the unanimous opinion of the Board that the fulfilling of these plans would greatly increase property values and open up a new district for business, and it is our intention to again propose this development with the thought in mind of a post-war project and for post-war prosperity for the City.

The Board discussed possible locations for a new City Hall and worked in conjunction with the Veterans' Memorial Committee. At their request four locations were submitted without indicating any preference. The sites recommended were the "apex site" bounded by Hancock, Washington, Coddington Streets and Faxon Avenue; Coddington School; the area between the Woodward Institute and Whitney Road; and the Rendezvous, opposite the Municipal Stadium on Hancock Street.

PLANNING BOARD — Left to right, seated: J. Everett Robbie, Walter A. Schmitz, Chairman, Harry H. Kerr, Frederic E. Ahearn. Standing: Gerhard F. Schafer, Clerk, Delceware King.

# BUILDING DEPARTMENT

ALRICK A. WEIDMAN .....Inspector  
Employees — 2  
1944 Budget Expenditure .....\$5,543.47

## BOARD OF APPEALS (Building Department)

WILLIAM R. LOFGREN.....Chairman  
JOHN J. GALLAGHER  
PAUL N. SULLIVAN

## BOARD OF APPEALS (Zoning)

HESLIP E. SUTHERLAND.....Chairman  
THOMAS H. FALLON  
WALTER A. SCHMITZ

The total number of building permits issued in 1944 amounted to 1,336. The total estimated cost of operations involved was \$629,087. Eighty-five percent of the permits were for alterations. Cash received for permits was \$1,589.95.

The Board of Appeals for the building code rendered decisions on nine applications; five were granted and four rejected. Hearings were held on seven applica-

tions by the Zoning Board of Appeals; three were granted and four rejected.

Ninety-eight elevators were given a practical test, as requested in Section 64, Chapter 143 of the General Laws, reports of which were sent to the Department of Public Safety. Six new elevator operator licenses and six renewals were issued.

During the month of April all fire appliances were tested, as requested in Section 48, Chapter 143 of the General Laws. Ninety-three places of assembly were inspected and orders given to comply with all safety requirements, as prescribed in section 3A of Chapter 143 of the General Laws.

War Production Board restrictions on construction remained in force during the entire year.

A program was started late in the year to have old, dilapidated and dangerous buildings removed. The program will operate on a voluntary basis, unless the buildings prove to be dangerous. In such cases, action will be taken, as prescribed in the General Laws. Notices have been sent to about forty owners of such buildings, and many of these buildings have already been demolished.

Eighteen appearances were made at the District Court on nine cases and one at the Superior Court.

# WIRING DEPARTMENT

FRANK LINTS .....Inspector

Employees — 2

1944 Expenditures .....\$4,000.48

## DUTIES

The fundamental purpose of the Quincy Wire Department is to safeguard the general public against loss of life or property by fire or shock, caused by defective electric wiring. By provision included in the General Laws of Massachusetts every city is required to have an Inspector of Wires. A local ordinance requires that all persons proposing to install wires give notice to the Inspector before proceeding with any installation.

In carrying out the powers and duties imposed by the law and the ordinances, I advise applicants for permits as to the proper wiring methods for particular installations; advise electricians on the job as to the proper procedure and upon completion of all installations, I inspect them to ascertain that the installation is safe from the hazards of electricity. This requires a careful examination to de-

termine that wires are of sufficient size, that they are properly insulated for the voltage which is to be used, that metal enclosures are grounded in a substantial manner and that the workmanship has been performed in a proper manner. In case of fire or changes in the structure of buildings, I inspect the wiring and determine what replacements and alterations are necessary.

Representatives of manufacturers of electrical equipment submit samples to me for approval before they are sold to electrical contractors. I often receive requests from owners of premises, who have reason to believe something is defective in their wiring, to inspect their wiring and advise them as to whether such wiring is safe.

The entailment of building and scarcity of electrical materials during the war may have given the impression that there is very little necessary electrical inspection. However, the tremendous increase in war industries and the willingness of some agencies to circumvent the National Electric Code, which is our wiring law, has made electrical inspection more important than ever. During 1944, 1,852 inspections were made and 1,010 permits issued.

1944 Budget Expenditure.....\$330,739.43

=====

The Quincy Police Department consists of the chief, four captains, eight lieutenants, eight sergeants, one hundred and six patrolmen and twenty-four reserve officers. It is equipped with two patrols, two ambulances, ten prowler cars, each with two-way radio communication, five motorcycles, one police boat, also equipped with two-way radio, and four rowboats.

The Department maintains a two-way police radio communica-

tion system, Station WQRP, the first in New England and the eleventh in the United States. It is equipped with a teletypewriter system connected with headquarters of the Massachusetts State Police, through which messages are relayed to all police departments maintaining similar systems in the country.

The above can be contrasted to the Police Department of 1889, the year after Quincy became a city, when it consisted of a deputy manager of police, twenty-one special police officers, ten constables, with headquarters and cells in the basement of City Hall.

Arrests during the year 1944 numbered 2,519, of which only 198 were females. There were 1,357 wagon calls and 330 ambulance calls.

The traffic bureau reports 457 accidents, 529 persons injured and 6 killed. Prosecutions numbered 864, warnings to motor vehicle violators 2,044 and blue tags 6,018. This Department registers all auto

*Quincy Police Boat.*

sale transfers and issues bicycle registrations, of which there were 375 in 1944.

A special juvenile bureau handles all cases involving juvenile crimes and misdemeanors. Last year there were 177 such cases in the Juvenile Court. There is a special photography bureau which in addition to photographing prisoners takes pictures of accidents and street scenes and damage claims against the city.

The bureau of investigation reports 1,263 investigations including deaths, breaks, larcenies, etc.; stolen property recovered, \$3,122.25.

The radio department transmit-

ted 31,610 messages and received 23,829. The license bureau made 862 store license inspections.

The liquor department through the assignment of an additional man, was able to give more attention to liquor law investigations, making nearly 5,000 more inspections than in previous year. The total was 8,119, about 25 inspections being made each night.

The Police Department renders many miscellaneous services to the community such as finding missing children, checking buildings for doors and windows left unlocked, checking on houses in absence of occupants, first aid work and many other services not ordinarily defined as strictly police work.

*Dr. Walter Kendall, nongenarian cyclist, receives bicycle license No. 1 from Police Chief John J. Avery while Mayor Ross and Fire Chief Sands look on.*

1944 Budget Expenditure.....\$354,508.17

=====

The Fire Department headquarters station is located at 26 Quincy Avenue. Fire stations are also at Atlantic, Wollaston, Squantum, Hough's Neck, West Quincy and Quincy Point. Present apparatus consists of two hose combinations (booster pump), eight pumping engines, four city service ladders, one aerial ladder (100 feet), two special service trucks and three department cars. Personnel: Chief, three

deputy chiefs, 12 captains, 11 lieutenants, 108 privates, one mechanic.

The Quincy Fire Department responded to 1,851 alarms in 1944, which was 316 alarms less than in 1943. This satisfactory decrease, on analysis, is found to be entirely in the number of grass and dump fires, and is rather surprising considering the abnormally dry season from May to October in 1944, when an increase in such fires might have been expected. It is likely that this decrease may be credited as a by-product of the waste paper collections carried on by the Quincy Salvage Committee. This was all to the advantage of the war effort in less paper burned, more salvaged, fewer unnecessary fire alarms and less gasoline consumed.

There were 28 less false alarms than in 1943, though the number, 97, is too many. Hose stretched amounted to 130,300 feet or 24½ miles end to end, and ladders raised 7,934 feet.

*Left to right: Chief Sands, Deputies Fenby, O'Neill, Gorman.*

## FIRE INSURANCE LOSSES

Total fire insurance losses in Quincy in 1944 amounted to \$336,382.29, an increase of \$82,228.99 over the previous year. Two fires, both large and difficult, were entirely responsible for this increase. These were the fire at the Old Colony Crushed Stone Company plant on February 14 and that at Norfolk Downs, December 21, which involved a block with retail stores on the ground floor and dwelling apartments above. The number of fires investigated with an inspector from the office of the fire marshal numbered 47.

## FIRE PREVENTION

The fire prevention program is an important but unspectacular feature of the work of the Fire Department. Inspections numbering 12,456 were made during the year of public, industrial buildings and private homes in the interests of prevention of fire hazards and safety. The Quincy Fire Department is responsible for the issuing of all the permits which are re-

quired for the storage of all inflammables, including oil wells, all forms of alcohol, powder, etc., also for outdoor fires, including yard bonfires, and for blasting.

## EQUIPMENT

With the exception of a new Chrysler car for the chief, no new equipment was purchased during the year.

## RECOMMENDATIONS

1. That a new station be erected at Hough's Neck to replace the present frame structure.
2. That two 1,000-gallon pumpers and one 65-foot junior aerial ladder be purchased to replace Engines 2 and 3 and Ladder 5, respectively. This replacement would, with one exception, leave our apparatus less than 10 years old.
3. That eight new men be added to the Department to replace the men assigned to fire alarm as operators and to place Ladder 3 back in service and thus give increased fire protection to the West Quincy section of the city.

## In Memoriam

### DEPUTY CHIEF PETER J. CREEDON

A veteran of World War I, he volunteered in the present war and on April 24, 1944, gave his life in the service of his country. His loyalty and unselfish devotion to this Department and to his country remain a cherished memory.

### CAPTAIN EDWARD O'NEIL

Lieutenant, U. S. N. R.

Retired, loyal and faithful fire fighter for more than twenty-five years, died July 30, 1944.

### PRIVATE WILLIAM BUCKLEY

Member of the Department since 1920, died July 10, 1944, in active service engaged in fighting a fire.

---

## FIRE AND POLICE SIGNAL

---

THOMAS J. SMITH ..... *Superintendent*  
Employees — 4

1944 Budget Expenditure.....\$26,781.62

---

All fire alarm, police signal and traffic signals were efficiently oper-

ated and serviced during the past 12 months in spite of many difficulties and delays of obtaining materials. Numerous additions and alterations were completed to all services maintained by this department. During the coming year all efforts of the members of this Department will be devoted to maintaining vital services with a minimum use of any material vital to war services.

---

## WATERFRONT DEPARTMENT

---

JAMES A. M. NASH..... *Harbor Master*  
1944 Budget Expenditure.....\$450.00

---

Under the General Laws of Massachusetts, Chapter 102, the duties of a harbor master are defined as the regulation of all shipping within the harbors of his city or town. Masters of vessels can anchor only under his direction and in such places as he designates and he has the power to direct the removal of such vessels whenever he deems it necessary. He reports shipwrecks, obstructions in harbor and all violations of laws relating to the tide-water in harbors. He also reports

receipts by water and launchings.

Receipts by water for 1944: City Fuel Co., 13 barges, 8,749 tons of coal. Standard Oil Company, 146 barges and steamers, delivered 46,222,665 gallons of oil. No shipping reported for Procter & Gamble Mfg. Company and Quincy Lumber Co.

Launchings: Bethlehem Shipbuilding Co., Quincy Yard, 37 vessels; Quincy Adams Yard, seven sub-chasers. Northeast Shipbuilding Co., 27 tow boats, 43 barges. Total launchings, 114.

The harbor master made 11 trips with power boat to the aid of boats in distress, aground or capsized. He picked up five rowboats which were claimed, and reported various beacons extinguished and buoys out of position.

---

## GENERAL RELIEF

While employment in Quincy was at a high level in 1944, our general relief case load showed a net increase. Illness remains the chief cause for aid in this division. This is followed by cases where the recipient is a person of advanced age and unable to qualify for old age assistance. There was also an increase in applications brought about by desertions and domestic troubles. As our local war industries have reached their peak and some have already started cut-backs this Department will undoubtedly be called on to assume additional problems and expense.

Our departmental truck and chauffeur were kept busy during the year in the picking up and delivery of the following materials: Federal surplus commodities, furniture and clothing, household effects of families receiving assistance, wheel chairs, hospital beds, fuel, and scrap paper and tin in connection with the salvage program.

## COAL

The coal shortage which arose again this year due to war and transportation difficulties resulted in the resumption of the coal bank instituted last winter. The emer-

gency was much more acute this year and many more families were affected. Coal was delivered in bulk by the dealers to the Welfare Building, where it was bagged and sold in 200-pound lots by our employees.

## SELECTIVE SERVICE

We have continued to cooperate with the Selective Service Boards and the Boston Induction Center in the investigation of claims of dependency by prospective inductees and service men seeking discharges on the basis of undue hardship.

## CLINIC AND DISPENSARY

Our clinic, under the supervision of our City Physician, Dr. MacLeod, and Mr. Walsh, Superintendent of the City Home, as our pharmacist, continues to operate one day weekly for general relief cases only.

## CITY HOME

The average case load of our City Home during 1944 was 30. Besides service to our regular applicants, we were called upon during the year, on several occasions, to provide shelter for persons taken from their homes because of fires, high-tide floods, hurricane ,etc. We cooperated on numerous occasions with the police in providing shelter for children when parents were held by them.

## OLD AGE ASSISTANCE

During the year of 1944, the old age assistance case load had a slight increase from 870 cases, as of January 1, 1944 to 883 cases, as of January 1, 1945. The steady work and high wages earned by the children in this defense area have eliminated many applicants from receiving old age assistance. Short-

age of labor in this community has also given older persons a chance of employment and has resulted in keeping the case load low.

To comply with the legislative act placing responsibility for the care of their parents on the children according to their means, the Department was obliged, during the year 1944, to have appear before the Probation Officer 17 cases of children for failure to comply with the law. As a result of the hearings, 15 were settled and contributions were made available out of court. The Department was forced to take the other two before the judge for disposition. Both were ordered to support their parents.

In June of 1944, notice was received for the additional liberalization; this time it was an exemption for servicemen's wives liable for support in old age assistance. Also in August, another allowance was made for reimbursement for

grants in advance when hospitalization occurs.

#### AID TO DEPENDENT CHILDREN

During the year 1944, the aid to dependent children case load increased from 92 cases to 104 cases for two major reasons: Many fathers suffered ill health due to overwork, and others, because of law-breaking, left their families totally dependent. It is expected that these conditions will continue. The State Department suggested no mandatory changes during 1944, despite the rising cost of living, but is enforcing an increase for clothing expenses in all cases and it is possible that a further increase in the cost of food will be granted in each case later. These increased allowances on clothing will go into effect March 1, 1945 and will bring the average semi-monthly payroll total to \$4,142.50 instead of the present figure of \$3,842.50 semi-monthly.

*Quincy City Home.*

# HEALTH DEPARTMENT

---

RICHARD M. ASH, M.D.....*Commissioner*

Number of Employees — 16

1944 Budget Expenditure.....\$83,902.54

---

## HEALTH REPORT

The full report of the commissioner and heads of the various divisions of this Department including vital statistics and other information for 1944 is on file at both the office of the City Clerk and that of this Department.

A study of these reports indicates a particularly busy year for those persons whose work is largely outside of the office. Conditions existing in Quincy today, due to the great amount of war work and consequent crowding of our living facilities, have greatly increased the efforts required of all of the members of this department. This is true in our inspection and clinic work, and doubly so in our office duties. We have carried on with no increase in personnel, everyone having accepted the additional burden.

Our efforts in diphtheria immunization continue to pay very large dividends. Only two cases of this disease were reported during 1944. We are looking forward to the day in the near future when clinic immunization of other contagious diseases will be practicable.

## DEATHS

There were 766 resident deaths recorded for 1944 in Quincy, a rate of 9.9 persons per 1,000 population. Only twice in the last 10 years has a lower rate been attained. Heart diseases, cancer and intracranial lesions continue to be the leading causes. The only deaths from reportable diseases were from tuberculosis and lobar pneumonia. Infant mortality had the lowest rate ever recorded in Quincy, 27.7, over a third of the total being due to pre-maturity. Only one maternal death occurred in the city, an unusually splendid record. The population figure for Quincy used for the above is 77,656.

## BIRTHS

A total of 1,588 births was credited to Quincy in 1944, a birth rate of 20.4 per 1,000 population, the third largest in the city's records. Nearly 99 percent of these births occurred in hospitals.

## RECOMMENDATIONS

First and most important is the problem of mosquito control. For the past two years it has been an actual torture to be out of doors during the early morning or evening because of their prevalence. It is most essential during the war that our citizens supplement the national food supply with whatever means are available. Most of us could raise vegetables on our properties if it were physically possible to remain out of doors. Many gardens were discontinued or suffered because of our residents actually being unable to stand the swarms of mosquitoes. In addition there is a great deal of unceasing

ness as to the possible spread of malaria from those returning victims of this disease. This is not probable because we are fortunate, according to the last survey in not having the "anophales mosquito" in our area. This is the particular type that spreads disease. However, we cannot be certain that this will always be the case. There is no question in my mind that the control program of the State is far from efficient, and certainly the City's program is insufficient. I recommend an immediate conference between State and City authorities, to the end that a proper and sufficient control project be immediately started and carried through.

Second, but equally important, is our method of garbage and rubbish disposal. A very limited survey by this Department shows that our present method is costly, inefficient and absolutely not in accord-

ance with public health standards. Conclusions in writing from this survey were presented in 1941. At that time one of the best known engineering concerns in this field offered to make a survey and recommendations for the sum of \$500. At that time it was apparently impossible to get that sum appropriated for this purpose. It is possible to so use the energy that is obtainable from an incinerator, so that in a reasonably short period the project will pay for itself and thereafter pay dividends. It is almost certain that our method of garbage disposal will only be allowed for a few more years. I most earnestly request a reasonable appropriation for a proper survey of our present disposal costs, and recommendations for proper incineration of both garbage and rubbish in the very near future, so that arrangements for the construction and completion of same can be pre-arranged as a post war project.

WILLIAM A. CAREY

AUGUSTUS E. SETTIMELLI

WILLIAM J. MARTIN

JOSEPH P. LEONE, M.D., F. A. C. H. A.

Superintendent

Employees — 351

---

While our receipts also established a new high record, it is evident that we must expect an increase in the new cost to the city in the operation of the Hospital. The increase of \$300 per year granted all municipal employees amounts to some \$90,000 in our de-

partment, and some further increases were necessary in order to make it possible to retain some of our operating force.

With a depleted professional staff of nurses and doctors, more patients were treated and cared for in our Hospital than in any previous year. The Board of Managers is deeply grateful to the staff for the many hours of service that they have rendered the charity cases admitted during the year. The cooperation given by the entire staff to our administration and the Hospital Board, is appreciated.

Our Superintendent, Dr. Joseph P. Leone, with his able assistants, has performed an outstanding service to the City in his tireless efforts to secure sufficient personnel so that required services could be maintained, but he never interposed an objection when nurses decided to leave for war work.

BOARD OF MANAGERS — Standing: Mr. Settinelli, Mr. Martin, Dr. Leone, Superintendent. Left to right, seated: Mr. Sloane, Chairman; Mrs. Robb, Mr. Carey.

## REPORT OF SUPERINTENDENT

For the third war year, the Quincy City Hospital, with its professional staff, employees, and volunteer corps, has responded in an unprecedented manner in meeting our unusual responsibilities to the community. The demands upon us have been greater than ever before.

### HOSPITAL CO-OPERATES WITH NAVY

Upon request of the Navy, the Board of Managers allowed the use of Ward A, a new 50-bed unit, that was completed in 1943, for the care of "Navy dependents." The Hospital furnished the basic essentials, such as food, medical and surgical supplies, laundry, and the use of the operating room and X-ray department by their Navy doctors. All patients in this ward were cared for entirely by the Navy doc-

tors and their personnel. The "Navy dependents" paid to us their hospital bills at the existing ward rates. From February 9th to August 1st 600 patients had been entered and cared for in this new unit. The Navy staff and their commanding officers worked together with the Hospital staff and administration during their entire stay. This arrangement permitted the City of Quincy, through the Hospital Department, to make an additional contribution to the United States Navy and its war effort.

### WHOLE BLOOD AND LIQUID PLASMA BANK

In December, a whole blood and plasma bank was established. The Quincy Salvage Committee contributed \$500 for this purpose. The committee in charge is: Drs. F. P. McCarthy, J. Brudno, D. Swan and Conrad Nobili. Liquid plasma

*Whole blood bank established and 455 blood transfusions given in 1944.*

and whole blood are now available to all patients needing this service. The patients' relatives are expected to contribute two units for each unit of plasma or blood given to a patient from the blood bank. The usual professional fee of \$25 is made for each transfusion when no blood is given by the relatives and deposited to the blood bank.

#### DAY NURSERY

The day nursery, at the Sears' estate, which opened in the summer of 1943, was officially taken over in conjunction with the hospital in March of this year. This was necessary in order that mothers with children could leave their children at the nursery while they worked at the Hospital. This arrangement has helped considerably in meeting the nurse shortage, but it has far from completely solved this problem.

#### MALE VOLUNTEER CORPS

The Quincy Chapter of the American Red Cross has been most cooperative in its program of teaching and training of nurses' aides. These aides have been of great help in the care of the sick. There was a need for "male volunteers" and with the assistance of Mr. Prescott Low and Mr. Frank Johnson and our nurse instructors, the male volunteers came into existence. In May, 32 men were graduated after a 24-hour course was given. These men were quickly pressed into service in the care of the male patients in our Hospital. This group represented a good cross-section of our male population residing in Quincy. During the year we trained 98 male volunteers, of who 65 percent are still active. Over 13,000 hours of free service have been given by this group of volunteers.

*Over 1500 hours free service rendered in 1944 by Male Volunteer Corps.*

## WOMEN RESPONDED

The women of our City have rallied to our help. Groups of women, known as the Red Cross Nurses' Aides, Motor Corps, Production Corps and staff assistants; the "Flower Corps" ward secretaries, the Junior Welfare League and the Occupational Therapy Committee, headed by Mrs. William Shyne, came to our assistance. The Girl Scouts and Campfire Girls contributed their share of volunteer service. Again we state that we could not have carried on at our Hospital without the assistance derived from the "Hospital Volunteer Corps Program." The citizens of Quincy are indebted and deeply grateful to all those participating in this Hospital volunteer program. In behalf of the staff, the Board of Managers, the Hospital personnel, we express our appreciation to all volunteer workers for coming to our aid in this war period.

*Red Cross Volunteer Nurses Aide Corps replace registered nurses for the armed services.*

## SCHOOL OF NURSING

The Quincy City Hospital is making an additional contribution through its School of Nursing. With hospitals throughout the country, our Hospital is cooperating with the United States Public Health nurse cadet training program. Practically all of our enrolled students are participating members.

## FUTURE PLANS

Our present bed capacity should be adequate for at least 10 years. On the other hand, if our Hospital is to render care and service to the aged, the chronically ill, to those with mental or contagious diseases, additional facilities must be provided. The modern trend and concept of the hospital of today is to build and equip general hospitals so that all types of patients may be given the necessary care and treatment in the community in which the patients reside. Should the citizens and taxpayers of Quincy follow the latest trend in the hospital field, these plans should be considered.

# ENGINEERING DEPARTMENT

GERHARD F. SCHAFER ..... *City Engineer*

Number of Employees — 9

1944 Budget Expenditure ..... \$26,237.25

## ENGINEERING

Details of construction of drains, sewers, curbs, sidewalks, unsurfaced streets and new streets are available in the form of charts in

the extended report of the Department in the City Clerk's office. The single biggest job was the widening and rebuilding of Foster Street from Washington to Chestnut Streets.

Federal Government restrictions in essential materials have so limited the amount of work which it has been possible to do that this report is necessarily very brief. The routine work in the office and field has been expeditiously taken care of as well as all engineering work required by the various departments.

# VETERANS AID DEPARTMENT

JOHN A. SANDISON ..... *Director*

Employees — 4

1944 Budget Expenditure ..... \$43,896.69

cases involved 527 persons. World War II honor roll has been started and we now have over 7,000 names on file, including the names of 162 boys of Quincy who have made the supreme sacrifice. Veterans' and servicemen's dependents are aided in filing various forms, such as insurance, pensions, gratuity, and allotments. Legal aid has been rendered when deemed necessary.

We have been able to assist many of the veterans who have problems concerning pension claims, converting insurance, vocational training and schooling under the G. I. Bill. We have been successful in obtaining employment in the proper setting for several veterans. Sixteen thousand photostatic copies of discharges and other valuable papers of servicemen have been made and are on file.

The medical clinic established in the Department has been used by many of the veterans of World War II and they have been referred to the proper hospitals or specialists as their cases require. A complete record is kept on file.

The Department was created by the City Council in December of 1943 and organized in February, 1944. The personnel consists of two clerks and one investigator. The senior clerk commenced work during March, 1944. In June an additional clerk was added to the force to take care of the work created by the rehabilitation program and information center set up by the Mayor's Rehabilitation Committee. Also at this time increase in applications necessitated the appointment of an investigator.

Since March 21, 1944 we have received 2,595 calls for advice and assistance. Financial aid has been granted to 227 cases, 130 of these being World War II. These 227

## THE THOMAS CRANE PUBLIC LIBRARY SYSTEM

Crane Memorial Libraries, Quincy Square, containing the main circulation department, reading room, readers' advisory service, adults' reference department, boys' and girls' room, art and technical

department, music room and administration offices.

Twelve branch libraries, service supplemented by regular exchange of books with main library.

Hospital library service at Quincy City Hospital five hours a day, six days a week, for patients and staff.

## LIBRARIAN'S REPORT

Though the year 1944 in this library was devoid of any outstanding achievements, nevertheless the record can be reviewed with a certain amount of satisfaction. First, there was a substantial increase in the loans of books and periodicals, the 496,270 issued representing a gain of nearly 36,000 over the 1943 figures. There were also 5,766 phonograph records and 2,352 pictures loaned, bringing the total circulation to 504,388. This is gratifying in view of prevailing conditions of wartime and with so many of our former borrowers in

TRUSTEES OF THOMAS CRANE PUBLIC LIBRARY — *Left to right, standing: Mr. Readdy, Treasurer; Colonel Adams, Chairman; Mr. Collins; Mr. Hill, Librarian. Seated: Miss Thompson; Miss Lane, Secretary; Mrs. Thomas.*

the armed services or engaged in overtime war work.

Another satisfaction is found in the establishment, after many years of endeavor, of a stabilized and equitable classified plan of library service with minimum and maximum salaries and yearly step increases. A good deal of study went into the preparation of the graded plan which was adopted after conference with the salary survey committee of the City Council which made effective the salary adjustments necessary. It is a relief to have achieved its adoption.

In "Post-War Standards for Public Libraries," a publication of the American Library Association, service standards or efficiency ratings are set up for libraries in cities of comparative population. How does the Quincy Library stand in its class? In its main library, its building, branch coverage of the city, number of borrowers, circulation of books, special services offered, the Thomas Crane Public

Library's rating is above the average of the standards set. However, in the amount annually expended for books and in the size of the book stock, this Library falls well below the average, spending only 13 percent of the total library appropriation for books instead of the standard 25 percent, and being 50,000 books short of the requirements for a public library offering the services it does in a city the size of Quincy.

Among the post-war problems widely discussed is the educational assistance which should be available in public libraries for the returning veteran. While demands probably may not be as great as many post war planners seem to expect, public libraries should be prepared with the material for adult education, vocational guidance, the rehabilitation of the disabled and similar problems. This library has begun the acquisition of books and other material along these lines and has already been of assistance to some discharged veterans.

*A phonograph record is played in one of the listening booths in the Library's music room. More than 5,000 records are loaned every year.*

## DEPARTMENT OF HISTORICAL PLACES

MAURICE P. SPILLANE ..... *Chairman*  
HENRY ADAMS  
LAWRENCE W. LYONS  
GRACE P. BONSALE  
HARRIET B. PIERCE

1944 Budget Expenditure ..... \$208.70

Interest in the birthplaces of our country's presidents is yearly increasing. In spite of travel restrictions we had last year

more visitors than at any time in the past, 1,406 at the birthplace of John Adams and 905 at the birthplace of John Quincy Adams, and some came from Canada and England.

The grounds were improved the past year by replacing the old fence on President's Avenue and Franklin Street with new hand-split rails and cedar posts, a much needed improvement. This year we hope to have a fence erected on the northern boundary, also on the north side grading to be done to prevent rain running down under the foundations of the John Adams House which would cause rot and decay.

PAUL GOSSARD .....Superintendent

1944 Budget Expenditure.....\$1,226,201.79

The Quincy School Department operates 24 school buildings which house two senior high schools, four

junior high schools, 19 elementary schools and the Quincy Trade School. Its payroll totals 498 employees, of which 425 are the teaching staff. The pupil enrollment October 1944 was high schools 2,290, junior high schools 2,952, elementary schools 6,006, trade school 182, total 11,430.

## SUPERINTENDENT'S REPORT

These few pages devoted to schools are designed to give local citizens now and the occasional interested reader in years to come some slight picture of the Quincy schools in the war year of 1944.

Like any business or other institution the school system has been deeply affected by the war. Thirty-seven employees are on leave to

QUINCY SCHOOL COMMITTEE — Left to right, standing: Miss Nilsen, Clerk; Mr. Taylor, Mr. Anderson, Mr. Lee, Dr. Gossard, Superintendent, Dr. Marini. Seated: Mayor Ross, Chairman Mrs. Nichols, Mr. Clark, Vice-Chairman.

*Respect for the flag is one of the first lessons to be taught.*

*Geography is more real when brothers and cousins are in service all over the globe.*

*Since the beginning of the war a course in Physics has been required of all high school boys.*

*Trade School boys not only acquire vital skills but contribute directly to war production.*

serve in the armed forces. Hundreds of young men shortly after being graduated from high school and many who had not finished have entered the service. What is taught reflects the needs of these young people and the necessity for all to place the furthering of the war effort high on the list of "musts." The science, mathematics, and shop courses in particular are serving as an important part of pre-induction training and also as preparation for students to aid in war industries. Among the war projects in which the schools have aided since the beginning of the war are war-production training, registration for selective service, weekly sale of war-savings stamps, bond drives, rationing, salvage drives, Junior Red Cross projects, and clothing drives.

Despite these many new demands the guaranteeing of a good, sound educational foundation to the young people is always the first obligation of the schools. A faithful and loyal staff of teachers and other workers, aided by many substitutes working in the places of people on leave, are doing a praiseworthy piece of work.

An effort is made to give the opportunity of an education to every potential pupil, with special classes for handicapped and with home teaching where necessary. The broad offerings of the four curriculums and the trade school at the secondary level are augmented by a cooperative arrangement permitting young people to take work tuition—free in neighboring communities where training is offered that we do not have—and vice versa. An effort to meet needs

of adults is being made by an evening school. Special services are rendered by the department of guidance and research, including a counseling service, an adjustment service, and a placement service, by the health education department, and by a testing program. War casualties among our special offerings, due to the scarcity of personnel, are the teaching-aids department, including visual education, and the general vocational class.

Recognizing the desirability of a good basic salary schedule as an essential in having an outstanding school system, the Quincy School Committee has adopted a new schedule that should do much to retain high-grade teachers, attract superior talent, and guarantee a dynamic, professionally up-to-the-minute staff.

The trend of recent years toward decreasing enrollments was further augmented by young people going into service before graduation and by the lure of high wages. The turning point came this year with an increase in enrollment due in part to the aid of local citizens in the national "back-to-school" drive.

These are times of crisis for schools, but times of crisis can also be times of opportunity. In the changes that the future will bring in a period to be characterized by radar, television, chemurgy, common air travel, and attempts to maintain world peace, the schools need the constant and alert interest of all the citizens of Quincy—an unselfish interest in the welfare of this city's greatest asset, its children.

# WAR PRICE AND RATION BOARD

CHARLES G. HARFORD.....Chairman

ALBERT L. LASH  
HERBERT C. CLARIDGE  
DOMINIC GUARCELLO  
JOHN FLAVIN  
U. RUSSELL PAAKONEN

W. LEMON  
M. C. MACDOUGAL  
PAUL B. YOUNG  
Z. CRANSTON SMITH

1944 Budget Expenditure.....\$2,758.30

There have been no significant major changes in the rationing program, in the size of the office or general rationing procedure, and the program has become more stable. From bitter experience and plenty of hard work, the procedure has been stabilized and

more expeditiously carried out. O. P. A. early in the year instituted an accountability system which did not deviate markedly from the system we were already using and was proof that we were working on the proper premise, as evidenced by the introduction of a similar system by Washington. The opening of the mailing center by the O. P. A. in December has not proved, in our estimation, as satisfactory as our previous methods, although it may be too early to judge, as it has been in operation for only one month.

At the beginning of the year the board membership was 10 and at present it has been increased to 16. Albert A. Lash, chairman during 1943, resigned the chairmanship on January 20, 1944 and was succeeded on February 4, 1944 by Charles G. Harford. We are given to understand by the O. P. A. that in 1945 more emphasis will be placed on price control activities. It was for this reason that, at the suggestion of the regional office, the price panel membership was increased to seven.

## ISSUANCES DURING 1944

January - December

Bicycles .....	42	
Shoe stamps .....	8,875	
Gasoline .....	6,717,154	Gallons
Stoves .....	717	
Autos (used) .....	71	
Tires .....	45,069	
Fuel oil .....	14,496,879	Gallons
Sugar for canning .....	135,855	Lbs.

# SALVAGE COMMITTEE

CLARENCE L. EDWARDS .....Chairman  
MRS. RAYMOND H. DAVIS .....Secretary  
IVAN H. POOLE .....Treasurer

In recognition of the cooperation received from the City during the past year, the Quincy Salvage Committee is sending members of the City Council the 1944 salvage report. We are grateful for the budget allotment which made possible the use of City equipment for collecting paper salvage. This cost has been repaid in full.

A bi-monthly paper collection from residences was organized, a calendar was printed and distributed, publicizing done by Boy

Scouts, Girl Scouts and Camp Fire Girls. On the first collection, 50 volunteers assisted in loading freight cars. Total amount of paper collected bi-monthly on industrial campaign during 1944, 1,316 tons, receipts \$19,394.44. Business paper collections began monthly in June, amounted to 96 tons, and \$900.72 received.

Tin can collections amounted to 407,835 pounds and fat receipts 188,099 pounds. Miscellaneous collections, paper from schools, 3½ tons, \$32.50; rags and hides, \$125.00.

The question may properly be asked what becomes of the money realized from the sale of salvage. The answer is that the balance after costs of collection and office expenses have been met, was donated to the following Quincy community organizations and projects:

Red Cross .....	\$250.00
Air Raid Wardens .....	300.00
First Service Club .....	50.00
Infantile Paralysis Fund .....	100.00
Coast Guard .....	477.65
Community Fund .....	450.00
U. S. S. Cruiser Quincy Fund .....	50.00
Boy Scouts .....	4,620.00
Camp Fire Girls .....	354.50
Girl Scouts .....	552.50
Y. M. C. A. Youth Canteen .....	1,584.65
Red Cross Canteen Corps .....	50.00
North Quincy High Parents Group .....	35.00
Quincy Child Guidance Clinic .....	1,000.00
Health Department .....	96.38
Quincy Chamber of Commerce .....	825.00
Squantum Troop No. 19 .....	18.75
Quincy Visiting Nurse Association .....	1,000.00
Whole Blood Bank Fund .....	500.00
Hallowe'en Entertainment .....	485.50
Salvation Army .....	1,000.00
South Junior School .....	25.00
Fourth War Loan Committee .....	18.75

\$13,843.68

*Boy Scouts and men volunteers assist Quincy Salvage Committee in loading paper on freight cars.*

# SEALER OF WEIGHTS AND MEASURES

~~~~~  
HENRY H. HUGHES ..... *Sealer*

JOHN B. CRONIN ..... *Deputy Sealer*

Employees — 2

1944 Budget Expenditure ..... \$4,276.29  
~~~~~

The Sealer in the performance of his duty tests, seals or condemns according to the results of his tests, every weighing or measuring device used in his community for buying, selling or exchange of any merchandise, also those devices for determining wages.

The scale on which the new-born babe is weighed is tested by him as well as the balances and graduates used to concoct baby's formula. Likewise are tested the intricate balances used to compound prescriptions for the sick. He inspects the clinical thermometers used in diagnosis to insure that they conform to the high standards required by this Commonwealth. (The Massachusetts statute provides a penalty for sale of clinical thermometers not bearing a Massachusetts seal or not having been certified as to accuracy by the Director of Standards.)

It is the Sealer's duty to test all weighing and measuring devices on which your food and fuel are weighed or measured. He certifies as to the accuracy of linear measures, including automatic cloth measuring devices, leather measuring machines, rope and wire measuring devices, taxi-meters, etc. He tests the scales used to weigh the yarn determining the spinners' wage, and in a dispute, tests picklocks which are used for arriving at the weavers' earnings.

When his mechanical phase, testing of devices, has been completed, his work is not done. He must constantly maintain a strict supervision to insure that the devices are properly used. He is charged with enforcing all laws pertaining to weights and measures, hawkers and peddlers, transient vendors, and quality of coal. It is his duty to investigate complaints, to prosecute those who violate the law, and to constantly reweigh and remeasure items of food and fuel prepackaged for future delivery.

In 1944 this department sealed 1,201 scales, 1,888 weights, 470 volumetric measures, 93 linear measures, 572 automatic liquid measuring devices and seven taxi-meters. Adjustments numbered 179 and devices condemned 45. There were 246 reweighings of which 75 were correct, 30 over and 141 under weight.

If you live in a community with an adequate, live Weights and Measures Department, your dollar will go farther for it is most probable that you will receive correct weight and measure. If not, its value will decrease because of lack of adequate supervision.

# LEGAL DEPARTMENT

JOHN P. FLAVIN.....City Solicitor

Employees — 1

The Legal Department is a very necessary and important department in the City of Quincy. The City Solicitor is annually appointed by the Mayor and, in accordance with the City Ordinance, shall have charge of the Law Department of the City. It is his duty to commence and prosecute all actions, suits and other legal proceedings founded upon any claim, demand, right or privilege of said City, or any department or administrative board thereof. He shall also appear in defense of any action, suit or proceeding which may be brought against the City wherein any right, privilege, property, estate, act or franchise of said City may be affected or brought into question before any Court, Board of Commissioners, or Committee of the General Court of the Commonwealth of Massachusetts. The City Solicitor must also prepare all

legal instruments which may be required of him by the Mayor and shall, when requested by the Mayor or the City Council, furnish written legal opinions upon any question relating to Quincy or its affairs.

Throughout the past year, the City Solicitor's office has performed these many duties and has disposed of, by trial, settlement or otherwise, many actions pending against the City. The bulk of these claims have been for damages due to accidents because of alleged defects on city highways and for land damage claims against the City for land takings, particularly the takings at South Street and East Howard Street, land takings at Broad Meadows and the land takings on Foster Street. This office has also disposed of almost all pending claims for tax abatements before the Appellate Tax Board and has adjusted or begun claims on behalf of the City for all monies due it from other cities and towns arising out of claims for hospitalization or assistance rendered to welfare or old age assistance cases.

The number of cases against the City have been drastically reduced by trial and disposition.

# PURCHASING DEPARTMENT

ORRIE D. WILLIAMS.....Purchasing Agent

Employees — 5

1944 Budget Expenditure.....\$8,267.03

During the year, 6,210 requisitions were received from the various municipal Departments resulting in 8,051 purchase orders amounting to total expenditures of \$314,578.71.

Schedules showing item breakdown of these figures as well as data on all the contracts made for purchase of equipment or supplies by the City through this office are on file in the City Clerk's office.

Aside from regular work, this Department is custodian of inventories of all equipment and records from the offices of W. P. A. and the Civilian Defense Council. It is also keeping the records required by the Quincy Rationing Board, of gasoline and fuel oil as used by all Departments of the City.

## VALUATION BALANCE SHEET SHOWING THE ASSETS AND LIABILITIES OF THE FUNDS OF THE QUINCY RETIREMENT SYSTEM AS OF JUNE 30, 1944

### ASSETS

Annuity Savings Fund .....	\$161,090.00
Annuity Reserve Fund .....	8,574.00
Pension Reserve Fund .....	
Pension Accumulation Fund .....	222,165.00
Total Present Assets .....	\$391,829.00
Present value of the prospective contributions payable by the City into the Pension Accumulation Fund .....	274,796.00
Total Assets .....	\$666,625.00

### LIABILITIES

Present value of benefits on account of which contributions have been paid by members into the Annuity Savings Fund .....	\$161,090.00
Present value of benefits payable on account of beneficiaries or their dependents now drawing annuities from the Annuity Reserve Fund .....	8,916.00
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Reserve Fund .....	....
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Accumulation Fund .....	79,628.00
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund .....	219,838.00
Present value of benefits to new entrants to be paid by contributions of the City into the Pension Accumulation Fund .....	197,153.00
Total Liabilities .....	\$666,625.00

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

# AUDITOR OF ACCOUNTS

LEO E. MULLIN.....*Auditor*

Employees — 4

1944 Budget Expenditure.....\$11,560.21

April 5, 1945

To His Honor the Mayor  
and the Honorable City Council:

I submit herewith the financial report of the City of Quincy for the year ending December 31, 1944.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

LEO E. MULLIN,

*Auditor of Accounts.*

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, the Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

LEO E. MULLIN,

*Auditor of Accounts.*

Norfolk, ss.

April 5, 1945

Subscribed and sworn to before me this day.

GRACE M. CULLEN,

*Notary Public.*

# ANNUAL APPROPRIATIONS — 1944
